

PRODUCT SPECIFICATION REPORT

Aid is an aerosol silicone lubricant and release agent. This product is NSF registered for use in food processing facilities for applications where incidental food contact could occur.

AID

Silicone Release Agent and Lubricant

PROD.#3582

FEATURES/BENEFITS:

Excellent Lubricant	Lubricates almost anything that sticks or squeaks
Reduce Friction	Unique blend of lubricants reduces friction between moving parts; even for metal- to- metal contact surfaces
Heat Stable	Lubricating film is functional from -80°F to 300°F
Convenient	Handy aerosol package is ready to use anywhere to eliminate costly production downtime
Contains No ODC's	Advance formula contains no 1,1,1 Trichloroethane or other ozone depleting compounds

APPLICATIONS:

Packing and Processing Equipment: Prevents waxes, films, adhesives, and glues from collecting.

Wrapping Equipment: Keeps waxed paper and plastic film from sticking and tearing.

Food Service: Excellent lubricant for packing equipment, o-rings and conveyors.

Plastic Products Manufacturing: A highly-effective mold release agent for injection, compression and blow-molding operations. Certain plastics and painted surfaces may be softened or damaged by this spray. Test on an inconspicuous area prior to general use.

NOTE: Spray is extremely flammable. Do not apply product in presence of possible sources of ignition, such as active electrical circuits, switches, running motors or flames.

COMPANION PRODUCTS:

FS Bakery Pan Cleaner, FS Strike Three (GreenLink), FS Amine Z, FS Formula 4489, Zep Gloves, Zep Spectra Clear Glasses.

SPECIFICATIONS:

Physical Form	Liquid (Aerosol)
Flammability	Extremely Flammable by CSMA
Odor	Solvent-Like
pH	N/A
Color	Colorless
Shelf Life	1 Year Minimum
Specific Gravity	0.8
DOT Shipping Label	ORM-D
