Environmentally preferred solvent cleaner
MIL-PRF-680 Type II Degreasing Solvent

DYNA 680 T2™

DESCRIPTION

An economical, environmentally preferred cleaner composed of selected hydrocarbon solvents.

FEATURES

- Cleaner and degreaser
- Environmental advantages
- Reduced customer concerns
- Low evaporation rate
- Versatile
- Military specification

BENEFITS

- Quality odorless solvent quickly dissolves grease, oil and other soils.
- A highly-refined, high-flash, low-toxicity hydrocarbon solvent. **Not a RCRA hazardous waste, Hazardous Air pollutant or Ozone Depleting Compound.**
- The elevated flash point provides both an added degree of safety in both use and storage. When used with Zep's parts washers and filtration systems, DYNA 680 T2™ can reduce the time and expense involved with disposal.
- Low vapor pressure and evaporation rate assure minimal evaporative loss and work exposure.
- In addition to parts washers, it may be used for general cleaning and degreasing anywhere a non-hazardous solvent product is needed.
- Conforms to requirements of Military Specification **MIL-PRF-680 Type II Degreasing Solvent.**

APPLICATIONS

DYNA 680 T2™ can be used in ZEP Manufacturing's complete line of parts washers and with all Zep filtration systems. It can also be applied by spraying, wiping, dipping or brushing and is ideal for removing accumulated soils, greases, hydraulic fluids and oil deposits from all types of metals.
