

ASPHALT AND TAR REMOVER™

A Heavy-Duty, Solvent-Based Product that Rapidly Penetrates Asphalt, Tar and Similar Soils

DESCRIPTION

A heavy-duty solvent-based liquid product for the removal of asphalt and tar. Contains a blend of strong, fast-penetrating solvents, biodegradable emulsifiers and detergents.

FEATURES

- Applies easily
- Clings
- Penetrates
- Emulsifies
- Free-rinsing
- Ready-to-use
- Harmless to most metals

BENEFITS

- Simply spray, brush or mop onto surface
- Thickened formulation adheres to surface to prevent waste and to prolong solvent action.
- Strong solvents quickly dissolve thick, stubborn deposits.
- Allows deposits to be easily rinsed away with water.
- Leaves no residue
- No need for stocks of diluent solvents
- Will not harm most metal surfaces when used as directed.

APPLICATIONS

Ideal for the removal of asphalt and tar from asphalt spreaders, road building equipment, tar melting equipment, mops, brooms, and shovels. Can also be used for removal of Bunker C Fuel Oil, grease, and black rubber tire marks from unsealed concrete floors. CAUTION: Test on painted surfaces prior to use, since damage can occur to some paints.
