

CHLOR-RETAIN™

Fast-Acting Absorbent for Body Fluids and Water-Based Spills

DESCRIPTION

A white chlorinated powder which is formulated to efficiently absorb and hold water-based spills, and is particularly applicable for body fluids. Conforms to OSHA & APIC Guidelines for handling bloodborne pathogens.

FEATURES

- Works Quickly
- Easily Picked Up
- Chlorinated
- Conveniently Packaged
- OSHA and APIC Conformance
- Versatile

BENEFITS

- When applied to water-based fluids, Zep Chlor-Retain quickly absorbs and retains the liquid for quick, easy clean-up.
- Absorbent and absorbed liquid remain in an easily manageable form for fast, complete removal.
- Formulated with 10,000 ppm chlorine for control of odor-causing bacteria. Note: As with any chlorinated product, do not apply to acid spills, until neutralized, to avoid liberation of chlorine gas.
- Easy to dispense from plastic shaker to quickly cover spills.
- Zep Chlor-Retain is formulated and packaged to comply with Occupational Safety and Health Administration (OSHA) and Association of Practitioners of Infection Control (APIC) guidelines for bloodborne pathogens.
- Can be used alone and also makes an excellent component to utilize in spill kits.

APPLICATIONS

Zep Chlor-Retain is formulated and packaged primarily as an absorbent for small water-based spills, and particularly body fluid clean up, in accordance with OSHA and APIC guidelines for potentially infectious body fluids. Particularly useful in:

Animal Hospitals & Veterinarians
Assisted Living Facilities
Child Day Care Centers

Nursing Homes & Hospitals
Physician's Offices

Schools & Educational Services
Sports & Recreation Clubs
