

ZEP Manufacturing Company

Dyna-Clean Parts Washer

915201 Dyna-Clean Basin and Drum
915301 Dyna-Clean Basin Only

The ZEP Dyna-Clean is the standard by which most solvent-based parts washers are measured. Designed for fast, efficient, and economical cleaning of dirty or greasy parts.

ZEP's exclusive filtration system extends solvent life and helps protect the environment. Instead of large volumes of potentially hazardous fluid being hauled from the work site, only the filter elements need to be disposed of. The ZEP Model 5100 filter can remove particles down to 10 microns (with optional element). The Dyna-Trap filter bag extends solvent life by removing oils and greases. The convenient filter change indicator lets you know when it's time for a new filter.

FEATURES

- All-steel construction
- Powder coat paint finish
- No tools required for assembly
- Spring-loaded lid for easy opening and closing
- 168 GPH UL/CSA approved submersible electric pump which operates on 115 VAC, 1 A
- Model 5100 filtration system with 50-micron polypropylene particulate filter and transparent filter bowl
- Filter change indicator signals when the 5100 filter needs to be changed
- 165°F UL approved fusible link to close lid in the unlikely event of a fire
- 24" flexible spout with on-off control
- Removable plastic sink strainer with magnetic drain stopper
- Conveniently located controls and tool rack

SPECIFICATIONS

Basin Dimensions: 32" x 22" x 10"
Basin Capacity: 30 Gallons
Overall Dimensions: 32" x 22" x 40"
Weight With Drum: 122 lbs.

PRODUCTS

0366 ZEP Dyna 143°
0179 ZEP Dyna 170°
