

PRODUCT SPECIFICATION REPORT

Peat Sorb is a hydrophobic modified sphagnum peat product which will absorb hydrocarbon based products such as oils and greases and will not allow them to leach out, making waste disposal easier and safer.

PEAT SORB™
Hydrocarbon Absorbent

PROD.#9622

FEATURES/BENEFITS:

Multi Functional	Peat Sorb will work with the full range of oil based products from crude oil, gasoline, PCB's, coal tars, fatty acids, hydrocarbon based inks and will solidify and absorb resins.
Effective Anywhere	Peat Sorb will work to absorb oils on land and in water as it floats in water and will not absorb water, only the oil on the water.
Non-Leaching	Oil absorbed does not leach out and is naturally degraded, making it acceptable for use in lined landfills which can handle Class 1 waste.
Non-Abrasive	Safe for use around machinery
Nontoxic	Peat Sorb is lightweight and nontoxic in its purchased form.

APPLICATIONS:

Peat Sorb can be used in many applications where oil spills occur. It is a quick absorbent, will reduce vapors and will capture oil on water which can keep oil from becoming a problem for wildlife. It can be used around machinery to absorb oil based liquid as it is soft enough not to harm moving metal parts or rubber rollers. The best use is that hazardous oil waste can be held in a more solid and less hazardous form for disposal. Useful for: fire departments, police and first responders, garage and auto repair facilities, departments of transportation, truck and bus facilities, wastewater treatment and water preservation organizations, oil fields.

COMPANION PRODUCTS:

Multi Clean Green (GreenLink), Tuff Green RTU (GreenLink), Dyna 143, Sunburst Hand Soap (GreenLink), MVP, Z-Green (GreenLink), Zorbent

SPECIFICATIONS:

Physical Form	Fibrous Material
Color	Brown
Odor	Slight
Shelf Life	1 Year Minimum (as long as kept dry)
D.O.T. Shipping Label	None

PACKAGING:

¼ cu.ft. Bottles
Case 6 Bottles
2 cu. Ft. Bag
Case 3 Bags
96lb. Drum
